

## DURAWAVEZ<sup>®</sup> NYLON OUTDOOR U.S.

Our most popular and versatile outdoor flag, Durawavez flags offer the optimum combination of elegance and durability for every purpose. The 100% nylon material provides a rich, lustrous appearance. Durawavez flags have superb wearing strength due to the material's superior strength-to-weight ratio, and will fly in the slightest breeze. These flags have individually embroidered or sewn stars.

Stripes are carefully and precisely sewn together with a special thread using a lock stitch for longevity. Durawavez flags are finished with strong, polyester canvas headings and spurred brass grommets for sizes up to 6'x10'. Larger sizes have roped headings with galvanized metal thimbles. The result is a flag that will be flown with pride year after year.
